Yeah, I don't know anything about this either. It could have been a region?

We would also never require someone to refile a report in CEDRI that they filed in hard copy before CEDRI was available. (A state might...a region shouldn't.) We have tried to make that clear in the most recent version of the language by stating "subsequent reports".

Hi Lisa,

Not sure where they are hearing a Feb 9 date. I have not spoken to anyone recently about the OOOOa reports and the CEDRI site does not include any such date. We would need more information from Ms. Hawthorne.

Thanks,
Ketan

Ketan / Gerri –

I know the answer to this one, but any idea where they got the February 9, 2018 date? Just curious!

Subject: OOOOa Annual Report Question

Ms. Thompson,

Since the reporting template for OOOOa did not come out 90 days prior to the October 31, 2017 deadline, we filed our clients' OOOOa reports by hard copy to the appropriate EPA or state office. A client told me that someone told them that the OOOOa reports filed in October, 2017 now have to be re-filed through CEDRI by February 9, 2018. Is this true? My understanding is that we have to begin using the system for the October, 2018 filing.

Thank you,

Deborah Hawthorne
